

The Acer Flooring Advantage

Acer Flooring is located deep in the northwoods of Wisconsin, where the winters are cold and long. It's the perfect combination for producing truly exceptional hardwood. Unparalleled quality, rich consistent color and tight grain make northern hardwoods the premium choice in hardwood flooring among homeowners, architects, designers and the building community.

Acer is a fully integrated hardwood flooring manufacturing facility. From the selection of northern hardwoods to the drying, precision milling, hand grading and prefinishing, Acer has control over each step of the process. Managing the entire operation under the Acer roof, together with generations of experience, allows Acer to deliver consistent flooring job after job, year after year.

Acer is a high caliber manufacturer of true Northern Solid Hardwood flooring in Unfinished, Prefinished and Specialty finishes.
