

# ReClaim I

## FIXED RESILIENT SYSTEM

Designed specifically to retrofit existing anchored sleeper floors, ReClaim I eliminates destructive removal of embedded steel pins and sleepers. It also substantially reduces labor and disposal cost especially if addressing hazardous materials. ReClaim I offers a manner of providing a similar profile height to the existing surface while upgrading to a high-performance athletic floor.

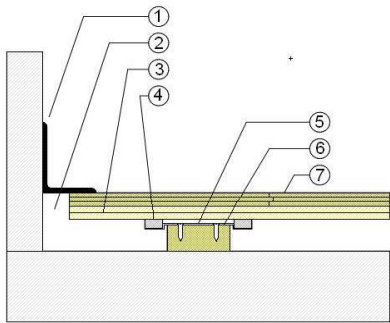

# ReClaim I

ReClaim I is designed specifically to combine with existing fixed sleeper components to reduce labor and disposal requirements while providing a certified MFMA-PUR compliant floor and a desired profile height.
