# Integrate PORTABLE FLOOR SYSTEM

Integrate is a manufactured portable floor system. Exact panel alignment is achieved through precision CNC fabrication and machining that features four-sided integral milled composite tongue and groove. Heavy duty steel brackets and tapered steel assembly pins ensure a perfect fit every time.

### Integrate

Integrate portable floor system is built for competitive playing. Players like Integrate for its playability, uniformity and shock absorption properties. Panels are produced using CNC technology that allows for quick, easy and precise assembly every time.

### System Type

# Green Status and LEED Contributors

- FSC® Certified Maple MR
- FSC® Certified Subfloor Components - MR
- Environmental Quality EQ
- Regional Materials MR

## Plastic Encased ECO Resilient Pads

- 2-3/4" (70mm)
- 3-1/4" (83mm)

Sleeper Plywood

### PRECISION PANEL INTEGRATION

Continuous CNC machined tongue and groove composite material on all 4 sides of each panel prevents finish build up and provides for perfect panel alignment for a smooth playing surface.

### **HEAVY DUTY BRACKETS**

Heavy duty steel brackets are securely mounted into the sleepers and subfloor panels for superior holding power. Ultra strong tapered steel assembly pins keep panels firmly in place.

### **CROSS-VIEW**

- 25/32" MFMA Precision Hard Maple Flooring
- 2. Integral Composite Continuous Tongue & Groove
- 3. High Strength Laminated Sleeper
- . Optional Encased Resilient ECO Pad
- 5. 5-Ply Exposure 1 Plywood Layer6. Heavy Duty Steel & Pin Connector

3-1/4" (83mm) Profile with Resilient Pad Option

It is the policy of Infinity Wood Floors to continuously improve its line of products. Therefore, Infinity Wood Floors reserves the right to change, modify or discontinue systems, specifications and accessories of all products at any time without notice or obligation to purchaser.
